

AXA Price list

Locks and lighting

Why this list?

AXA BIKE has made its retail packaging more sustainable. To ensure a smooth transition from old to new packaging, we are required to use new article numbers and GTIN codes on the new packaging.

This ensures that the product flows in our warehouses and those of our customers remain separate. In the AXA BIKE product brochure, you will only find the new article numbers and GTIN codes. Do you need the old numbers? Then use this price list, which shows the old and new numbers side by side. The barcodes in this list display the old GTIN codes.

Table of contents

Chain locks	3	Foldable locks	7	Battery headlights	11
